### Water Tank

**Support Ice Cube & Water:** Our Air Cooler's 180L water tank is able to support large amount of Ice Cubes and Water, allowing us to provide the best cooling experience to our beloved customers.

### Water Pump Protection

Our Air Cooler is equipped with a Water Sensor that helps to stop the water pump from functioning when there's no water detected in water tank. This will stop the Cooling Mode and helps the water pump to prevent damage itself.

### Wheels

Our Air Coolers contains **2x Brake Wheels** and **2x Standard Wheels**, allowing our customers to the cooler freely and lock it firmly at customers' desired location.
